

COMPENG 2SH4 Project – Statement of Contribution

Your Group Name Vincent and Ali

Your Name Vincent Yu-yuw79

Your Team Member's Name Ali Bandali-bandaa2

You must complete this statement of contribution without discussing it with your project partner, i.e., individually. Your statement should be concise (at most one-and-a-half page). It has three parts:

1. Tell us about your own contribution to the development of your COMPENG 2SH4 project. For example, you can tell us about which project iterations (as mentioned in the project manual) and C++ project classes that you worked on and completed. You can provide a concise answer either in paragraph form or through bullet points.

I personally complete iteration 0, 1A, 2A, and 3 feature 1. That is, I completed objPos, objPosArrayList, and Player classes.

2. Repeat Part 1 above but this time tell us about your project partner's contribution to the development of your COMPENG 2SH4 project.

My partner completed iteration 1B, 2B, 3 feature 2,3, and bonus.

3. Tell us about your experience in your first collaborated software development through this project – what was working and what wasn't. If you are a one-person team, tell us what you think may work better if you had a second collaborator working with you.

What Worked:

- **Effective communication and task division ensured meaningful contributions from everyone.**
- **Using Git streamlined collaboration, allowing us to track changes and resolve issues efficiently.**
- **Discussions on design decisions and code reviews improved the project quality and my skills.**

What Didn't Work:

- **Limited documentation made understanding others' contributions harder.**
